

## Independent Readers

Dear Parents:

These Libraries are in every classroom in K-2 and in the School Library.

These illustrated books provide children with an opportunity to practice their reading skills as they progress through Reading Mastery. The text of each story consists of words that children have learned by the lesson the book is introduced. This resource is provided for you and you may check out these books for extra home practice through the homeroom teacher and/or the school library.

The tables below show the lesson to be completed before introducing children to each title.
