

Special Requests for Bus Transportation

Mystic Valley's policy regarding special requests that we receive for bus transportation is as follows: Students are allowed to use only one bus (the one that they qualify for that provides service to and from their home). We cannot accommodate special requests to have students go on another bus for whatever reason that is given, for example, a parent who requests that his/her children be allowed to take a different bus on Tuesdays to go to Karate classes. The answer for this request is that the students can only ride on the bus that they qualify for. Another common request is for children to go on a different bus for an after-school play date or to take a bus (that they do not qualify for) for one day only. Mystic Valley's response to this request is also that students can only go on the bus that they **"qualify"** for.
